In Books!
I found this book treasure by...

...watching a book trailer

...asking a friend

...looking in a bookstore

...browsing at the library

...listening to an adult

...searching online

...reading a book review

...listening to a family member

...being in a book club
BURIED TREASURE

Finish the grid by filling in the letters along the top row and the numbers along the side column. Finish the map by drawing the rest of the coast, and include the details you want. Don’t forget an X to show your hidden treasure.

Get together with a friend but don’t show them your map. See if you can find each other’s buried treasure by guessing with up to ten pairs of map co-ordinates.
